

K-Love radio is my daily bread. If they have to compete with LPFM broadcasting, I will lose my signal. As I travel most of the day, K-Love keeps me focused. If they are not on the air, my mind drifts and I can't keep my train of thought on my job, family & community affairs. Many elderly people that are house bound depend on K-Love to keep them abreast of local church events. They can also call and have someone pray with them. K-Love is a God-send to housebound folks. Local churches depend on free announcements for the area over K-Love. Please, please do not take this away from us.
